Settlement Agreement Reached

SAN ANTONIO, TEXAS – NOVEMBER 22, 2024.

e9 Treatments, Inc. and Aculon, Inc. jointly announce that they have reached a confidential settlement and resolution of a lawsuit that was pending in the federal district court in San Antonio, Texas. The lawsuit involved self-assembled monolayers of phosphonate and their use to prevent paraffin and asphaltene deposits in oil and hydrocarbon processing. Under the settlement, both companies will continue offering its products and services moving forward.
